### EDUCATION

#### Bina Nusantara University

Indonesia, Jakarta

*Bachelor of Information system Accounting & Auditing*

*September 2021-2025*

- Cumulative GPA: 3.88/4.00
- Relevant Coursework: Advanced Business Applications Development; Advanced Information System Analysis and Design; User Experience Research and Design; Testing and System Implementation; Data and Information Management; Information System Audit; Governance; Management of Information Technology.

### WORK EXPERIENCE

#### PT Skyworx Indonesia

Indonesia, Jakarta

*Quality Assurance Engineers*

*March 2025 – Present*

- Contributed to 5+ AI-powered banking software projects across Indonesia, spanning Collections & Recovery Management, Loan Origination, and Document Management systems.
- Created 1,000+ detailed test cases for web and super-app platforms, ensuring functionality, performance, and reliability.
- Reduced regression testing time by 60% by developing and implementing an automated test suite, enabling faster feature releases.
- Executed comprehensive API tests in Postman and performance tests in JMeter to validate functionality, security, and scalability, ensuring stable, seamless integration across system components.

#### PT BCA Finance

Indonesia, Jakarta

*Quality Assurance Automation*

*September 2024 – February 2025*

- Improved test coverage by 60% across three major projects by writing and executing automated test scripts in Katalon Studio.
- Documented and maintained test plans, scenarios, and issue logs to establish a disciplined, auditable testing process.
- Developed automated Postman suites and JMeter workloads to verify API functionality, security, and scalability, enabling predictable performance in high-traffic conditions.

#### PT BCA Multifinance

Indonesia

*Quality Assurance*

*February 2024 – August 2024*

- Documented and maintained test plans, scenarios, and issue logs to establish a disciplined, auditable testing process.
- Worked closely with developers to test bug fixes, confirming that issues were resolved and ensuring the final product was stable.
- Tested 50+ development tickets and change requests for internal applications, ensuring functional correctness and regression stability.

### ACTIVITY

#### SASC Mentoring Program at BINUS University

Indonesia

*Mentor*

*September 2022 – January 2024*

- Mentored students throughout one semester, providing academic guidance and teaching subjects related to the Information Systems major to support their learning and development.

#### GBI Senayan City

Indonesia

*Part-time Multimedia Operator*

*September 2022 – Present*

- Operated multimedia equipment to support church activities and managed live broadcasting on YouTube and Zoom platforms during worship services.
